Washington

Iron Springs Resort <http://www.ironspringsresort.com/> is a recently-renovated property along the Washington Coast, with 24 oceanside cabins and a sandy beach. Throughout the entire resort, guests will find amenities, specific for canines from the dog washing stations and plush and absorbent dog towels in each cabin to the complimentary tennis balls available in the check-in office. For dog-owners, the fully stocked kitchens provide everything they will need to create a full Turkey Day spread. Plus forget the olive oil, or need to grab an extra bottle of wine? The General Store in Cabin No. 1 has plenty of basics that may get left behind. Plus, for those dogs that want to wear their Iron Springs pride, there are branded collars and leashes available in the store as well.
